

SECTION B

RAISED PANEL PROFILES

RAISED PANEL PROFILES

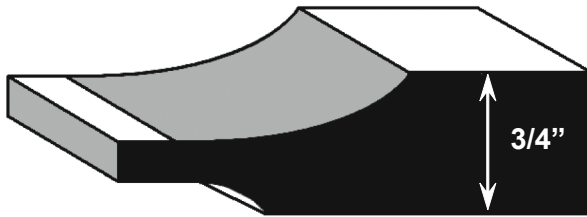

The standard profile reveal on our raised panels is 1-1/4". The standard raised panel thickness is 3/4".

A cove profile (the RP 40) will be added to the back side of the panel which, as a result, will bring the back of the panel flush with the stiles and rails. See image below.

Reduced reveals are available on most raised panel profiles as indicated in the RP designation.

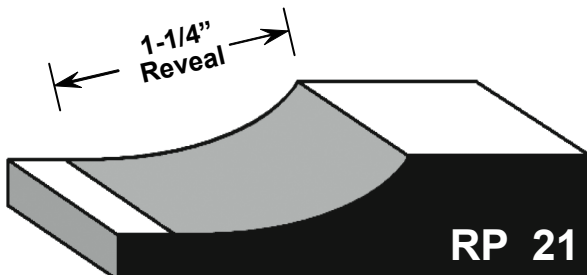

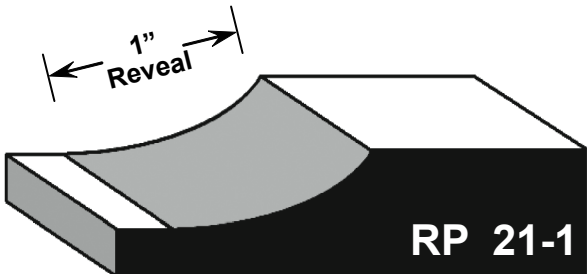

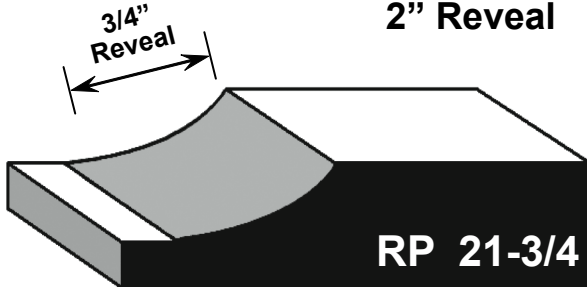

3/4" Thick Center Panel

This is an example of a 3/4" thick center panel displayed on the RP 21 Series. Available on all raised panel profiles.

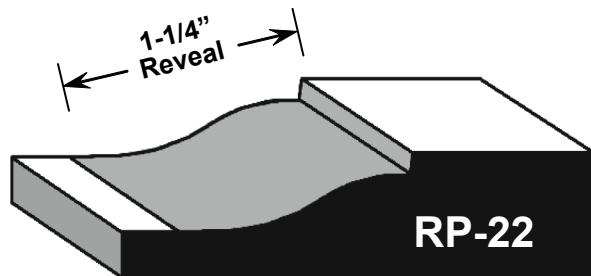

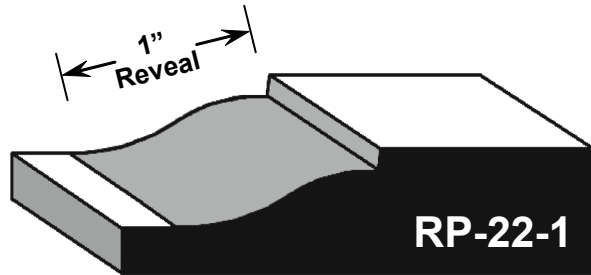

RP 21

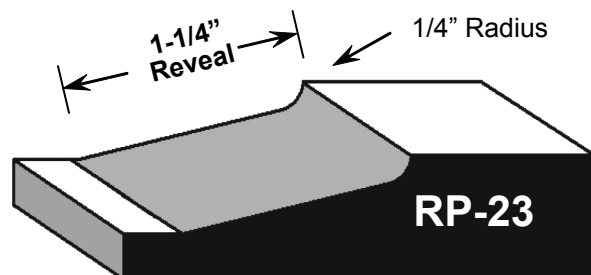

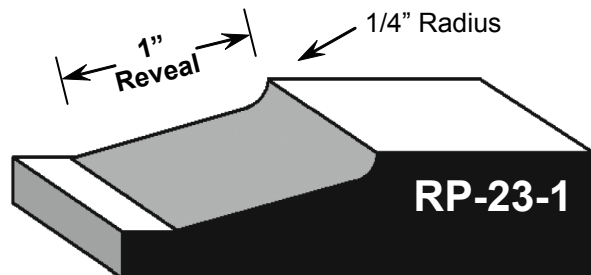

Also Available: 1-1/2" Reveal

RP 53 Series

RP 54 Series (3/4" Thick Panel)

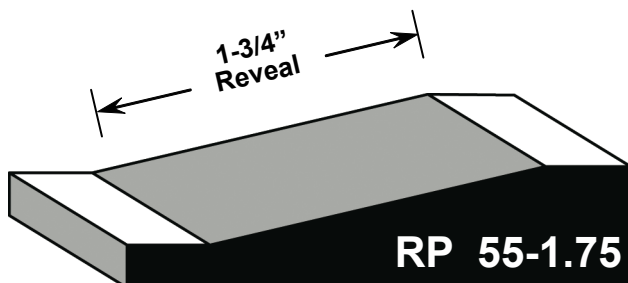

Note:

The RP 54 is typically used with the SR 1012.

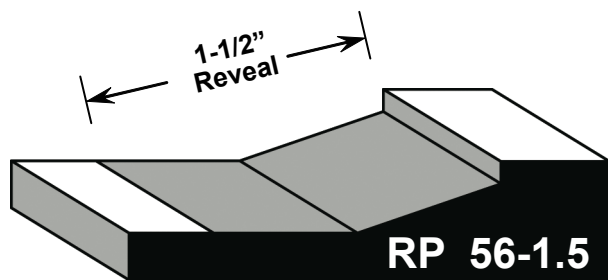

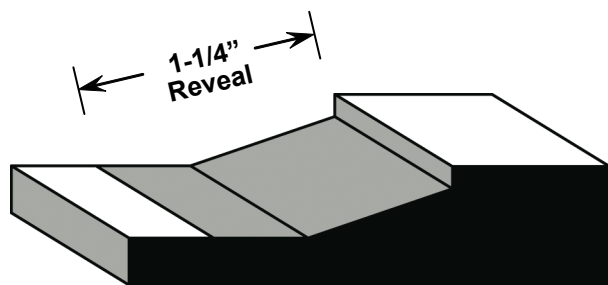

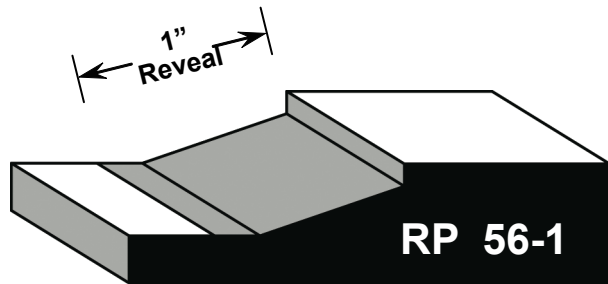

When used with a standard 3/4" Stile & Rail profile the panel will stand 1/8" proud of the frame and \$5.00 per square foot will be added.
